Established under the aegis of Bateshwar Priya Educational Trust, Trust Act 1862, Indian Stamp Act 1899, Endorsement Under Section 52, 58, Registration Under Section 60, Indian Yoga Association - IYA/AC/2020/034

AYUSH MEDICAL COLLEGE, operating under the Bateshwar Priya Educational Trust, is deeply committed to the well-being of individuals through its comprehensive educational and healthcare initiatives. With a dedicated focus on empowering our students beyond their qualifications, our institution was founded with the fundamental goal of advancing education in Naturopathy and yoga. Notably, AYUSH MEDICAL COLLEGE is a registered member of the esteemed QCI (Quality Council of India), a central regulatory authority that designs specialized courses for the effective Naturopathic treatment of conditions such as diabetes, kidney ailments, and cancer.

## CAREER OPPORTUNITIES

Naturopaths and yoga therapists usually work as independent doctors or work in hospitals as specialists treating cancer, kidney failure, diabetes, obesity, stroke etc. in emergency setting.

Employment opportunities for naturopaths extend beyond traditional settings such as spas, healthcare research, administration, retail, and media. Specializations are also possible, including working with specific demographics such as children, the elderly, and individuals with conditions such as oncology, diabetology, infectious diseases, and emergency medicine.

The nation is increasingly recognizing the significance of naturopaths and yoga experts in contributing to nation-building and fostering a healthier populace, thereby advancing India towards becoming a disease-free nation.

## NOW IS THE IDEAL TIME TO PURSUE STUDIES IN NATURAL THERAPIES

In an era dominated by modern technology, environmental pollutants, poor dietary habits, and stress, the significance of natural therapies for maintaining health is escalating. These therapies offer support for individuals with both acute and chronic conditions, addressing the holistic unity of body, mind, and spirit. Natural therapists dedicate time and personalized care to each client, integrating various natural methods to promote optimal health.

Our mission is to provide comprehensive, hands-on training in natural therapies such as Naturopathy, Yoga, Ayurveda, acupuncture, and more. We aim to cultivate highly competent practitioners capable of achieving success in their field. Our courses are designed to be widely recognized and respected both in India and internationally, while continuously elevating the prominence of natural therapies in society.

## TRAINING FOR RESEARCH

Stem cell research holds immense potential for regenerative medicine. Ayush Medical College is dedicated to training scholars in diverse fields such as molecular biology, stem cells, organ regeneration, and the influence of natural elements on molecular and biochemical structures.

Our curriculum emphasizes the application of knowledge and skills in naturopathy, yoga, acupuncture, Ayurveda, reiki, herbal medicine, and nutritional science. Key objectives include:

1. Applying expertise in biomedical assessment, molecular biology, yogic science, and healing arts.
2. Developing proficiency in multiple modalities.
3. Equipping trainers to revolutionize the healthcare landscape.
4. Integrating and synthesizing concepts for professional advancement.
5. Utilizing research findings for clinical practice.
6. Cultivating competency in the ethical and effective clinical practice of Ayush Medical College, adhering to government regulations for patient assessment, diagnosis, and treatment across various practice settings.

We've integrated training in stem cell research, molecular biology, and more into our naturopathy and Yoga programs. This comprehensive approach instills greater confidence in our students. Notably, even allopathic doctors lack such training and research facilities. Stem cell research represents a groundbreaking aspect of naturopathy's efficacy. Our naturopaths explore how naturopathic and yogic treatments influence the body's stem cells, offering new avenues for treating chronic diseases.

## COURSE DETAILS

### BACHELOR IN NATUROPATHY AND YOGIC SCIENCE

**BNYS**

The BNYS (Bachelor in Naturopathy & Yogic Science) program is recognized by the Government of India's council or university. Upon graduation, students gain access to various job opportunities in both the Government and private sectors as doctors. They have the option to establish their own Naturopathy clinic or hospital, as well as Rehabilitation or Naturopathy/Yoga Therapy centers. Additionally, they can pursue roles as lecturers or professors in medical colleges.

**Eligibility criteria:** Completion of 10+2 or equivalent with Physics, Chemistry, and Biology from a recognized college or board.

**Duration:** The program spans 4 years and 6 months, followed by a 1-year internship.

### DIPLOMA IN NATUROPATHY AND YOGIC SCIENCE

**DNYS**

The Diploma in Naturopathy & Yogic Science is a medical education program recognized by the Ayush Ministry of the Government of India. Upon completion of the course, students can practice as physicians or naturopathic doctors, treating both acute and chronic diseases. Developed by the Central Council of Research in Yoga & Naturopathy under the Ministry of Ayush, graduates have the opportunity to establish their clinics or work as doctors in various government and private sectors.

**Eligibility:** Successful completion of 10+2 or equivalent with Physics, Chemistry, and Biology from a recognized board.

**Duration:** The program lasts for 3 years, with an additional 6-month internship period.

### YOGA TEACHER / YOGA INSTRUCTOR

**YT / YI**

A 'Yoga Teacher / Yoga Instructor' is a government-recognized professional qualified to teach yoga in various settings such as society, schools, colleges, resorts, and more, in both private and government sectors. They are also capable of utilizing yoga therapy to treat both acute and chronic diseases.

**Eligibility:** Completion of 10+2 (any stream).

**Duration:** The program spans 1 year.

### PG DIPLOMA IN NATUROPATHY & YOGIC SCIENCE

**PGDNYS**

Individuals with a DNYS qualification can pursue diverse career paths, including employment as professionals in the field or as teachers and Research Associates in colleges. Moreover, those with a DNYS, BNYS, or any medical graduate background are eligible to undertake this role.

**Eligibility:** DNYS, BNYS, or any Medical Graduate qualification.

**Duration:** The program typically lasts for 1 year.
